OUR SERVICES FOR DEVELOPMENT FACILITATION

"Poor people are marginalized in many aspects not because of lack of competency it is mainly because of lack of opportunities".

This motto is the root of our organization and the work we intend to do. We chose this motto because we believe that economic and political development can only be achieved by the hard and committed work of Nepalese people, it is not something that outsiders can give to us. The logic is, that if we fought to get it, we will fight to keep it, and even if we lose it, we know how to fight to get it back.

## Background

Development Exchange Center – Nepal (DEC-Nepal) is a center for learning and sharing on the promotion of self-governance. It is a non-governmental organization registered under social organization registration act 2034. It has a decade long of experience in promotion of self-governance at local level. The organization is committed for promoting initiatives for the empowerment and development of poor, marginalized and weaker sections of the society. Its efforts are based on the philosophy of participatory action research and people centered development approach.

DEC-Nepal is situated in the beautiful surroundings of Sauraha Chitwan. It has an excellent library having thousand of development related books and good physical surroundings for the exchange of knowledge and ideas on development issues.

DEC-Nepal focuses its energy on supporting existing Civil Society Organizations (CSO's) that represents the poor and marginalized sections of the society. It believes that CSOs are the representatives of the society. A strong and well functioning civil society is of outmost importance for a well functioning democracy.

Poor and marginalized people of Nepal need to be aware of their rights and obligations as citizens. They also should have the means of demanding their rights and exercising their obligations. DEC-N intends to support the forces in society promoting this process.

## Vision

Equitable Distribution of Power.

## Mission

- ▲ Create of critical mass for promotion of self-governance at local level.
- ▲ Promotion of equitable access to resources and economic opportunities to the poor, creating an enabling environment whereby they can become competent to change their livelihood situation by productively utilizing all their potential resources.”

### The other relevant goals are:

1. Promotion of access to economic opportunities for the poor, enhancing their capacities to promote local resource based economic activities
2. Enhancement of productive utilization of resources by the poor by encouraging them to improve their life style through the utilization of unused scattered local resources

## Strategies

- ▲ Institutionalizing participatory sharing process amongst various development actors
- ▲ Strengthening capacity of CSOs on people centered advocacy
- ▲ Initiating economic development interventions/initiative

In line with the adopted strategies DEC-Nepal initiates the following major areas of activities:

- Awareness and education
- Linkage and networking
- Research and advocacy
- Development support communication
- Capital formation at local level
- Self Governance

### Executive Committee Members:

1. President, Dr. Rohit K. Nepali
